

Our Alliance with the Personal Care Products Council

A Compliance and Knowledge Solution that Focuses on Topics Such as:

- *Quality Assurance and GMP Guidelines*
- *Safety Evaluation Guidelines*
- *Microbiology Guidelines*

Improving Compliance and Product Safety

The Cosmetic and Personal Care Products industry faces unprecedented growth in regulatory complexity across global boundaries.

That's why UL EduNeering has formed an exclusive alliance with the Personal Care Products Council, the leading national trade association representing this industry.

Through this relationship, members of the Council will benefit from an authoritative online compliance and knowledge solution.

Focus on Critical Topics

Together, UL and the Council has created a custom compliance and knowledge solution for the industry that addresses the key tenets of promoting safety, advancing science, informing the public and harmonizing global standards.

Quality, Safety and More

Members will gain in-depth knowledge of industry guidelines for quality assurance and GMPs, safety evaluation and microbiology. Additionally, the alliance focuses on developing solutions to address the increasingly important issues of environmental stewardship and green chemistry.

Council-Specific Issues

Our Cosmetic GMP and Safety course Library includes the following:

GMP Courses – Based on ISO standard 22716 and Council QA Guidelines

Safety Assessments – Based on Council safety evaluation guidelines

Microbiology – Based on Council microbiology guidelines

ComplianceWire® Platform

Some of the world's leading companies rely on UL's web-based learning management platform to distribute compliance learning programs and improve performance across their organizations.

ComplianceWire provides these features:

- Enterprise-wide system
- Role-based curricula
- Audit-ready reports
- Easy-to-use learner interface
- Optional exam tools

ComplianceWire can be integrated with human resource information systems so that an organization can embed learning assignments into its daily business cycle with minimal administrative effort.

UL Libraries

UL offers the following online course libraries:

Ethics Library: Courses focus on ethical and workplace topics, such as Code of Conduct, employee confidentiality, sexual harassment and site security.

GMP Library: Courses focus on environmental control and monitoring, bloodborne pathogens, batch records, bacterial endotoxins and more.

Health and Safety Library: Courses focus on environmental, health and safety issues regulated by federal agencies including the EPA, OSHA and DOT.

FDA Inspection and Enforcement Library: FDA-authored and/or reviewed courses used by the FDA to train inspectors are available to Pharmaceutical and Medical Device organizations.

Human Resources Library: These courses focus on the concerns of managers/supervisors, employees and HR professionals.

Committed to Regulatory Learning and Business Improvement

UL EduNeering is a business line within UL Life & Health's Business Unit. UL is a premier global independent safety science company that has championed progress for 120 years. Its more than 10,000 professionals are guided by the UL mission to promote safe working and living environments for all people.

UL EduNeering develops technology-driven solutions to help organizations mitigate risks, improve business performance and establish qualification and training programs through a proprietary, cloud-based platform, ComplianceWire®.

For more than 30 years, UL has served corporate and government customers in the Life Science, Health Care, Energy and Industrial sectors. Our global quality and compliance management approach integrates ComplianceWire, training content and advisory services, enabling clients to align learning strategies with their quality and compliance objectives.

Since 1999, under a unique partnership with the FDA's Office of Regulatory Affairs (ORA), UL has provided the online training, documentation tracking and 21 CFR Part 11-validated platform for ORA-U, the FDA's virtual university. Additionally, UL maintains exclusive partnerships with leading regulatory and industry trade organizations, including AdvaMed, the Drug Information Association, the Personal Care Products Council and the Duke Clinical Research Institute.
